

About Us

Formcase is a German premium manufacturer of mobile storage and charging solutions. Founded in 2015 in Nattheim (Germany), the Formcase brand is one of the leaders in the "Mobile IT" and "Education" sector.

The ISO 9001:2015 certified company also specializes in the development and manufacture of individual and tailor-made solutions in the industrial sector.

Why Formcase

Formcase charging systems provide a safe environment for students and teachers to charge their digital devices such as iPads, tablets and laptops.

Our TransformerCases are designed to serve their purpose for an entire generation of students. Our product name says it all! Even years later, we can adapt our TransformerCases to a new purpose, be it by replacing the electronics with more powerful ones or by converting the system from an active system (with Smart Hubs) to a passive system (with sockets).
